A PLACE STEEPED IN HISTORY

Take the Wine Route to Barr, wine capital of the Bas-Rhin region, to discover a town that has held onto all of its authentic cachet. On the main square, a historic assembly of iconic buildings has had a new lease on life. The Bürgerstube dates back to the 16th century, representing the town's history and its ongoing relationship with viticulture, in the heart of Alsace.

A TIMELESS ATMOSPHERE

The building – having undergone inspired, challenging and meticulous restoration – transcends time... Like a precious stone in a carefully crafted setting, contemporary features highlight the original architectural elements. Inspired by nature, the décor embraces and enhances raw materials that bear testimony to the craftsmanship of centuries past. Soft and sensuous, these materials are only embellished by the passage of time.

THE SPLENDORS OF THE VINEYARDS

The hotel moves to the rhythm of the surrounding vineyards and offers a number of unique experiences. Enjoy a tasting of Grand Cru wines – from a regional selection of organic, biodynamic and natural wine producers – under a sun-drenched glass roof or on a verdant patio. Stroll or bike through the vineyards, visit the wine cellars or take an immersive introductory course in the universe of winemaking.

SPA

Intimate relaxation.

Nestled in a vaulted cave, the hammam, sauna, treatment rooms and pool, fed by the Source des Oies, offer a unique opportunity to take some time for yourself.

M

An artistic backdrop.

Alsace and its wine producers are placed in the spotlight through a collection of black and white photography and works about architecture, local winemaking history and gastronomy.

F

Authentic cuisine.

Tried-and-true, timeless local products. Rediscover the simplicity of ingredients and their flavors in a modern, authentic setting.
